CLARIFICATION OF CONFLICT OF INTEREST

Forex-ROI defines a conflict of interest as any kind of circumstance in which either **Forex-ROI** or an individual is within a position to take advantage of an experienced and official capability to some extent for either organization or privately owned reward.

CONFLICT OF INTEREST MEASURES

Wide spread methods have already been utilized by **Forex-ROI** to reduce, manage and handle the exchange of valuable information between valuable persons associated with activities regarding a risk of a conflict of interest. For instance, **Forex-ROI** has withdrawn every direct link between the compensation of appropriate persons fundamentally involved with just one exercise along with the remuneration of various valuable personnel specifically associated with others exercise.

DISCLOSURE OF CONFLICT OF INTEREST

When the methods used by **Forex-ROI** to take care of conflicts of interest are not adequate to guarantees, with realistic trust, that the risk of damage to clients' requirements would be blocked, **Forex-ROI** will divulge the conflicts of interest to the investor to be able to reduce a chance of damage to clients' interests. Prior to performing a deal or giving a trade or an ancillary assistance to a trader, the Organization has to divulge any specific genuine or possible conflict of interest. The disclosure will be insufficient time, in a long-lasting means.

RECORD KEEPING

Forex-ROI keeps a record, which is constantly up-to-date, of the kinds of investments, assets, and ancillary services or investment exercises performed by **Forex-ROI** or on its behalf by which a conflict of interest entailing a considerable risk of damage to the benefit of more than one clients has arisen.
